MILITARY TERMS NOW
LISTED IN DICTIONARY

Definitions of military and naval terms grouped together under a single heading, is one of the special features of The New Universities Dictionary now being offered to readers of this paper, contributing to the splendid success attending the distribution of the book. In reading about the war, not infrequently the reports contain some word or expression with which the average reader is unfamiliar.

The meaning of such terms can readily be had by turning to The New Universities Dictionary, as well as that of many expressions which have come into more common usage since the continent of Europe became one vast battle ground and the high seas turned into a "danger zone" by the naval operations of the contending powers.

Coupons are being redeemed in large quantities, so enthusiastically has the offer been received, and it is evident that The New Universities Dictionary is finding its way into the business office as well as the home.

FAMED GONDOLIER'S
SON FOUND STARVING

Venice, May 22.—Pietro Dominico, son of the favorite gondolier of the late James Gordon Bennett, has just been rescued from the streets of Venice where he was faced with starvation. With this mother ill and his father dead in the war, Pietro was forced to beg a few pennies from the crowds on the busy Via Mercatoria and in the Piazza St. Marco. But there were few tourists this winter and the townspeople, who depend largely upon visitors for a living, had but little to share with him. The outlook was dark, but now Pietro is safely aboard the Red Cross orphan training ship and his mother is being cared for.

Bankrupt Earl Breaks Law.

(Special Cable to The Herald.) London, May 22.—Earl of Clancarty, who gained fame years ago by marrying Belle Bilton, a well known actress of the time, had to appear in the Bow Street Police Court here today to answer charges of obtaining credit from London hotels without disclosing the fact that he was not discharged from bankruptcy, and of obtaining goods under false pretences.
